Title and subject index for Volume 124, 2001

Abnormal axonal inward rectifier in streptozocin-induced experimental diabetic neuropathy (Yang *et al.*), 1149
Abnormal corticospinal function but normal axonal guidance in human L1CAM mutations (Dobson *et al.*), 2393
Abnormal interaction between vestibular and voluntary head control in patients with spasmodic torticollis (Münchau *et al.*), 47
Abnormalities of sensorimotor integration in focal dystonia: a transcranial magnetic stimulation study (Abbruzzese *et al.*), 537
Acetylcholine receptor deficiency syndrome, mRNA levels (Croxen *et al.*), 1362
Acute myelopathies: clinical, laboratory and outcome profiles in 79 cases (de Seze *et al.*), 1509
Adaptive changes of saccadic eye–head coordination resulting from altered head posture in torticollis spasmodicus (Maurer *et al.*), 413
Adenosine-mediated inhibition of striatal GABAergic synaptic transmission during *in vitro* ischaemia (Centonze *et al.*), 1855
Adolescents born pre-term, neurodevelopment (Allin *et al.*), 60
Aldose reductase in diabetic mice (Yagihashi *et al.*), 2448
Alexia, and single-word reading (Leff *et al.*), 510
Altered brain functional connectivity and impaired short-term memory in Alzheimer's disease (Grady *et al.*), 739
Aluminium hydroxide, in macrophagic myofasciitis muscle (Gherardi *et al.*), 1821
Alzheimer's disease, and cerebral amyloid angiopathy (Dermaut *et al.*), 2383
attention (Baddeley *et al.*), 1492; (Gainotti *et al.*), 731
brain functional connectivity (Grady *et al.*), 739
figurative language decline (Papagno), 1450
preclinical, episodic memory (Bäckman *et al.*), 96
semantic memory (Giffard *et al.*), 1522
Amnesia, autobiographical, in transient epileptic amnesia (Manes *et al.*), 499
Amputees, phamtom limb pain (Lotze *et al.*), 2268
Amygdala, and extrageniculostriate responses to faces (Morris *et al.*), 1241
in Alzheimer's disease memory (Grady *et al.*), 739
Amygdala damage, and theory of mind (Fine *et al.*), 287
Amyloid angiopathy, presenilin 1 mutation (Dermaut *et al.*), 2383
Amytrophic lateral sclerosis, and primary lateral sclerosis (Le Forestier *et al.*), 1989
CSF superoxide dismutase (Jacobsson *et al.*), 1461
respiratory muscle strength (Lyall *et al.*), 2000
Ano-rectal sensation, cortical processing (Hobday *et al.*), 361
Anti-GQ1b ganglioside antibodies mediate complement-dependent destruction of the motor nerve terminal (O'Hanlon *et al.*), 893
Anti-Hu-associated paraneoplastic encephalomyelitis: analysis of 200 patients (Graus *et al.*), 1138
Apomorphine therapy in Parkinson's disease (Manson *et al.*), 331
Apraxia, ideomotor (Hanna-Pladdy *et al.*), 2513
tactile (Binkofski *et al.*), 132; (Valenza *et al.*), 2287
Area dentata in autism (Saitoh *et al.*), 1317
Arithmetic calculation in low-birthweight children (Isaacs *et al.*), 1701
Arm tremor in cervical dystonia differs from essential tremor and can be classified by onset age and spread of symptoms (Münchau *et al.*), 1765
Arteriovenous malformations of the brain (Al-Shahi and Warlow), 1900

Ataxia, autosomal dominant cerebellar (Fujigasaki *et al.*), 1939
cerebellar, otolith function (Wiest *et al.*), 2407
with gluten sensitivity (Bürk *et al.*), 1013
Attention, in Alzheimer's disease and multi-infarct dementia (Gainotti *et al.*), 731
Attentional control in Alzheimer's disease (Baddeley *et al.*), 1492
Attentional guidance in early visual cortex areas (Olson *et al.*), 1417
Auditory neglect (Bellmann *et al.*), 676
Auditory processing, Wernicke's area subsystem (Wise *et al.*), 83
Autism, face processing (Pierce *et al.*), 2059
limbic system abnormality (Saitoh *et al.*), 1317
Autobiographical memory, hippocampal activity (Maguire *et al.*), 1156
in transient epileptic amnesia (Manes *et al.*), 499
Autosomal dominant cerebellar ataxia, TATA box-binding protein gene (Fujigasaki *et al.*), 1939
Autosomal dominant cortical myoclonus and epilepsy (ADCME) with complex partial and generalized seizures: a newly recognized epilepsy syndrome with linkage to chromosome 2p11.1-q12.2 (Guerrini *et al.*), 2459
Autosomal recessive hereditary neuropathy, and *MTMR2* mutation (Houlden *et al.*), 907
Axon damage, matrix metalloproteinase involvement (Newman *et al.*), 2203
Axon excitability, temperature effects (Kiernan *et al.*), 816
Axonal calcium influx in multiple sclerosis and EAE (Kornek *et al.*), 1114
Axonal loss in optic nerve in multiple sclerosis (Evangelou *et al.*), 1813

Bacterial peptidoglycan and immune reactivity in the central nervous system in multiple sclerosis (Schrijver *et al.*), 1544
Balance disorders, visual vertigo (Guerraz *et al.*), 1646
Becker's disease, and transient paresis (Drost *et al.*), 352
Behavioural profiles of children and adolescents after pre- or perinatal unilateral brain damage (Trauner *et al.*), 995
Behavioural relevance of atypical language lateralization in healthy subjects (Knecht *et al.*), 1657
Benzodiazepine receptors, in malformations of cortical development (Hammers *et al.*), 1555
Biofeedback relaxation, and brain activity (Critchley *et al.*), 1003
Bladder filling, brain mechanisims (Athwal *et al.*), 369
Blindness, cortical, and retinal ganglion cell function (Azzopardi *et al.*), 1228
Blindsight, and emotional facial expressions (Morris *et al.*), 1241
and motion discrimination (Azzopardi and Cowey), 30
Body schema, influenced by pain (Schwoebel *et al.*), 2098
Bone marrow transplantation, and stroke (Coplin *et al.*), 1043
Botulinum-toxin resistant cervical dystonia, and denervation (Münchau *et al.*), 769
Bradycardia, ictal, in epileptic seizures (Tinuper *et al.*), 2361
Bradykinesia in Parkinson's disease (Berardelli *et al.*), 2131
Brain activity during biofeedback relaxation: a functional neuroimaging investigation (Critchley *et al.*), 1003
Brain activity during face memory (Grady *et al.*), 739
Brain activation during planning in Parkinson's disease (Dagher *et al.*), 1020
Brain anatomy, gender and IQ in children and adolescents with fragile X syndrome (Eliez *et al.*), 1610
Brain and cervical cord in multiple sclerosis (Rovaris *et al.*), 2540
Brain damage, and global motion perception (Vaina *et al.*), 310
early unilateral, and behaviour (Trauner *et al.*), 995
Brain damage patterns in children from inflicted head injury (Geddes *et al.*), 1290
Brain function recovery in cerebral hypoperfusion (Marshall *et al.*), 1208
Brain injury, microscopic, in head-injured infants (Geddes *et al.*), 1299
Brain malformations, arteriovenous (Al-Shahi and Warlow), 1900
Brain mapping of human precentral motor system (Rademacher *et al.*), 2232
Brain responses to changes in bladder volume and urge to void in healthy men (Athwal *et al.*), 369
Brainstem gliomas in adults: prognostic factors and classification (Guillamo *et al.*), 2528
Brodmann areas 44 and 45, and verb processing (Bak *et al.*), 103

CAG repeat expansion in the TATA box-binding protein gene causes autosomal dominant cerebellar ataxia (Fujigasaki *et al.*), 1939
Cajal–Retzius cell reelin expression, in polymicrogyria (Eriksson *et al.*), 1350
Calcium influx in multiple sclerosis and EAE axons (Kornek *et al.*), 1114
Calculation difficulties in children of very low birthweight: a neural correlate (Isaacs *et al.*), 1701
Caloric vestibular stimulation and neck vibration, brain responses (Bottini *et al.*), 1182
CANOMAD (Willison *et al.*), 1968
Capgras delusion, neural activity
Capsaicin-insensitive nociceptors in pain and hyperalgesia (Magerl *et al.*), 1754
Cardiac autonomic dysfunction in temporal lobe epilepsy (Druschky et al.), 2372
Carotid artery disease, and impaired cerebrovascular reactivity (Markus and Cullinane), 457
Carotid artery occlusion and cerebral function (Marshall *et al.*), 1208
Central benzodiazepine receptors in malformations of cortical development: a quantitative study (Hammers *et al.*), 1555
Central nervous system disease in patients with macrophagic myofasciitis (Authier *et al.*), 974
Cerebellar ataxia, otolith function (Wiest *et al.*), 2407
Cerebellar lesions and somatosensory processing (Restuccia *et al.*), 757
Cerebellum impairments in pre-term-born adolescents (Allin *et al.*), 60
Cerebral amyloid angiopathy is a pathogenic lesion in Alzheimer's disease due to a novel presenilin 1 mutation (Dermaut *et al.*), 2383
Cerebral hypoperfusion, and brain function recovery (Marshall *et al.*), 1208
Cerebral representations for egocentric space: functional–anatomical evidence from caloric vestibular stimulation and neck vibration (Bottini *et al.*), 1182
Cerebrospinal fluid, dendritic cells (Pashenkov *et al.*), 480
Cerebrospinal fluid pathology patterns in multiple sclerosis (Cepok *et al.*), 2169
Cerebrotendinous xanthomatosis, brain changes (De Stefano *et al.*), 121
Cerebrovascular reactivity, and carotid disease (Markus and Cullinane), 457
Cervical cord and brain in multiple sclerosis (Rovaris *et al.*), 2540
Cervical dystonia, and denervation (Münchau *et al.*), 769
Cervical dystonia arm tremor, and essential tremor (Münchau *et al.*), 1765
Changes in brain activity related to eating chocolate: from pleasure to aversion (Small *et al.*), 1720
Changes in dopamine availability in the nigrostriatal and mesocortical dopaminergic systems by gait in Parkinson's disease (Ouchi *et al.*), 784
Characterizing the neural mechanisms of

skill learning and repetition priming: evidence from mirror reading (Poldrack and Gabrieli), 67
Charcot–Marie–Tooth disease, mouse models, Schwann cells (Sancho *et al.*), 2177
X-linked (Dubourg *et al.*), 1958
Chlamydia pneumoniae in multiple sclerosis (Derfuss *et al.*), 1325
Chocolate eating, brain activity (Small *et al.*), 1720
Chronic inflammatory demyelinating polyneuropathy, and sural nerve demyelination (Bosboom *et al.*), 2427
membrane properties (Cappelen-Smith *et al.*), 2439
The clinical and laboratory features of chronic sensory ataxic neuropathy with anti-disialosyl IgM antibodies (Willison *et al.*), 1968
A clinical and pathological study of motor neurone disease on Guam (Morris *et al.*), 2215
Clinical, biochemical and molecular genetic characteristics of 19 patients with the Sjögren–Larsson syndrome (Willemsen *et al.*), 1426
Clinical, electrophysiological, and molecular genetic characteristics of 93 patients with X-linked Charcot–Marie–Tooth disease (Dubourg *et al.*), 1958
Clinical outcome in adult onset idiopathic or paraneoplastic opsoclonus–myoclonus (Bataller *et al.*), 437
Cochlear implant, and language processing (Giraud *et al.*), 1307
Coeliac disease, and sporadic cerebellar ataxia (Bürk *et al.*), 1013
Cognitive and motor function and the size of the cerebellum in adolescents born very pre-term (Allin *et al.*), 60
Cognitive set shifting in Parkinson's disease (Cools *et al.*), 2503
Complex regional pain syndrome type I, vascular abnormalities (Wasner *et al.*), 587
Comprehension of metaphors and idioms in patients with Alzheimer's disease: a longitudinal study (Papagno), 1450
Congophilic amyloid angiopathy (Dermaut *et al.*), 2383
Consciousness [review] (Zeman), 1263
Contextual guidance of attention: human intracranial event-related potential evidence for feedback modulation in anatomically early temporally late stages of visual processing (Olson *et al.*), 1417
Continence mechanisms, cortical processing (Hobday *et al.*), 361
Control of volitional and reflexive saccades in Tourette's syndrome (LeVasseur *et al.*), 2045
Copaxone treatment of multiple sclerosis (Farina *et al.*), 705
Cordotomy, and spinothalamic tract crossing (Nathan *et al.*), 793
Cortical activation by tactile and painful stimuli in hemispherectomized patients (Olausson *et al.*), 916
Cortical and subcortical contributions to ideomotor apraxia: analysis of task demands and error types (Hanna-Pladdy *et al.*), 2513
Cortical deafness to dissonance (Peretz *et al.*), 928
Cortical development malformations causing epilepsy (Woermann *et al.*), 427
Cortical dysgenesis, effect of multiple subpial transection (Shimizu *et al.*), 1336
Cortical innervation of the facial nucleus in the non-human primate: a new interpretation of the effects of stroke and related subtotal brain trauma on the muscles of facial expression (Morecraft *et al.*), 176
Cortical mechanism for the visual guidance of hand grasping movements in the monkey: a reversible inactivation study (Fogassi *et al.*), 571
Cortical myoclonus, and epilepsy (Guerrini *et al.*), 2459
Corticobasal ganglionic degeneration, motor output pathways (Valls-Solé *et al.*), 1131
Corticofacial projections in brainstem (Urban *et al.*), 1866
Corticospinal function in L1 mutations (Dobson *et al.*), 2393
The course of corticofacial projections in the human brainstem (Urban *et al.*), 1866
The crossing of the spinothalamic tract (Nathan *et al.*), 793
Crying and laughter, pathological, cerebellum link (Parvizi *et al.*), 1708
Cutaneous pain, capsaicin-insensitive nociceptors (Magerl *et al.*), 1754

Deafness, cortical, and dissonance (Peretz *et al.*), 928
Deception detecting, and frontal lobes (Stuss *et al.*), 279
Decision-making in mania: a PET study (Rubinsztein *et al.*), 2550
Defecation mechanisms, cortical processing (Hobday *et al.*), 361
Delayed inflammation in rat meninges: implications for migraine pathophysiology (Reuter *et al.*), 2490
Delayed onset and resolution of pain: some observations and implications [review] (Schott), 1067
Delayed onset mixed involuntary movements after thalamic stroke: clinical, radiological and pathophysiological findings (Kim), 299
Delayed radiation myelopathy and other acute myelopathies (de Seze *et al.*), 1509
Dementia, familial frontotemporal (Rosso *et al.*), 1948
multi-infarct, and attention (Gainotti *et al.*), 731
semantic (Murre *et al.*), 647
Demyelinating neuropathy, and *MTMR2* mutation (Houlden *et al.*), 907
Demyelination, trigeminal neuralgia (Love and Coakham), 2347
Dendritic cells in human cerebrospinal fluid (Pashenkov *et al.*), 480
Denervation for cervical dystonia (Münchau *et al.*), 769
Depth of processing effects on neural correlates of memory encoding: relationship between findings from across- and within-task comparisons (Otten *et al.*), 399
Development of the hippocampal formation from 2 to 42 years: MRI evidence of smaller area dentata in autism (Saitoh *et al.*), 1317
Devic's neuromyelitis optica, and matrix metalloproteinases (Mandler *et al.*), 493
Diabetes, experimental, sensor neurone involvement (Zochodne *et al.*), 2319
Diabetic lumbosacral radiculoplexus neuropathy (Dyck *et al.*), 1197
Diabetic neuropathy, aldose reductase (Yagihashi *et al.*), 2448
axonal excitability (Yang *et al.*), 1149
Diagnostic value of sural nerve demyelination in chronic inflammatory demyelinating polyneuropathy (Bosboom *et al.*), 2427
Differential extrageniculostriate and amygdala responses to presentation of emotional faces in a cortically blind field (Morris *et al.*), 1241
Diffusion tensor imaging in patients with epilepsy and malformations of cortical development (Eriksson *et al.*), 617
Diffusion tensor imaging of cryptogenic and acquired partial epilepsies (Rugg-Gunn *et al.*), 627
Discourse, neural organization (Braun *et al.*), 2028
Dissociated active and passive tactile shape recognition: a case study of pure 'tactile apraxia' (Valenza *et al.*), 2287
Dissociation between intentional and incidental sequence learning in Huntington's disease (Brown *et al.*), 2188
A dissociation between subjective and objective unsteadiness in primary orthostatic tremor (Fung *et al.*), 322
Dissociation between 'theory of mind' and executive functions in a patient with early left amygdala damage (Fine *et al.*), 287

Dissonance reaction in cortical deafness (Peretz *et al.*), 928
Distribution of a calcium channel subunit in dystrophic axons in multiple sclerosis and experimental autoimmune encephalomyelitis (Kornek *et al.*), 1114
Does diabetes target ganglion neurones?: progressive sensory neurone involvement in long-term experimental diabetes (Zochodne *et al.*), 2319
Does primary lateral sclerosis exist?: a study of 20 patients and a review of the literature (Le Forestier *et al.*), 1989
Dopamine agonist-induced dyskinesias are correlated to both firing pattern and frequency alterations of pallidal neurones in the MPTP-treated monkey (Boraud *et al.*), 546
Dopamine integrity while walking (Ouchi *et al.*), 784
A double dissociation between accuracy and time of execution on attentional tasks in Alzheimer's disease and multi-infarct dementia (Gainotti *et al.*), 731
Dynamic organization of the somatosensory cortex induced by motor activity (Braun *et al.*), 2259
Dyskinesias, levodopa-induced, causal mechanisms (Boraud *et al.*), 546
Dyslexia, impaired temporal contrast sensitivity (Ben-Yehudah *et al.*), 1381
left minineglect (Hari *et al.*), 1373
refractory (Crutch and Warrington), 1533

Evidence for subcortical involvement in the visual control of human reaching (Day and Brown), 1832
Evoked potentials, in multiple sclerosis (Fuhr *et al.*), 2162
Examination of motor output pathways in patients with corticobasal ganglionic degeneration using transcranial magnetic stimulation (Valls-Solé *et al.*), 1131
Excessive daytime sleepiness: a challenge for the practising neurologist [review] (Guilleminault and Brooks), 1482
Executive function in Parkinson's disease (Dujardin *et al.*), 389
Executive functioning after frontal lobe excision, and theory of mind (Rowe *et al.*), 600
Executive functions, and theory of mind (Fine *et al.*), 287
Exon skipping in *LAMA2* gene, and muscular dystrophy (Di Blasi *et al.*), 698
Experimental autoimmune encephalomyelitis, calcium influx in axons (Kornek *et al.*), 1114
gene expression profiles (Ibrahim *et al.*), 1927
Experimental autoimmune neuritis, and leflunomide (Korn *et al.*), 1791
Expression of specific matrix metalloproteinases in inflammatory myopathies (Kieseier *et al.*), 341
The expression profile of matrix metalloproteinases (MMPs) and their inhibitors (TIMPs) in lesions and normal appearing white matter of multiple sclerosis (Lindberg *et al.*), 1743
Extrageniculostriate and amygdala responses to faces (Morris *et al.*), 1241
Extrahippocampal temporal lobe atrophy in temporal lobe epilepsy and mesial temporal sclerosis (Moran *et al.*), 167
Eye–head coordination in torticollis (Maurer *et al.*), 413

Face and voice recognition, neural activity (Shah *et al.*), 804
Face memory in Alzheimer's disease (Grady *et al.*), 739
Face processing occurs outside the fusiform 'face area' in autism: evidence from functional MRI (Pierce *et al.*), 2059
Facial discrimination in cortical blindness (Morris *et al.*), 1241
Facial nucleus innervation in rhesus monkey (Morecraft *et al.*), 176
Facial paresis, brainstem projections (Urban *et al.*), 1866
Familial frontotemporal dementia with ubiquitin-positive inclusions is linked to chromosome 17q21–22 (Rosso *et al.*), 1948
Famous faces and buildings identification (Gorno-Tempini and Price), 2087
Fibrillary chorea, Morvan's (Liguori *et al.*), 2417
Flumazenil binding, in malformations of cortical development (Hammers *et al.*), 1555
Fluorodopa uptake in Parkinson's disease, sex differences (Kaasinen *et al.*), 1125
Focal autobiographical amnesia in association with transient epileptic amnesia (Manes *et al.*), 499
Focal dystonia, sensorimotor integration (Abbruzzese *et al.*), 537
Food (chocolate) eating, brain activity (Small *et al.*), 1720
Fragile X syndrome in young people (Eliez *et al.*), 1610
Frontal lobe excisions, and theory of mind (Rowe *et al.*), 600
Frontal lobes and human memory: insights from functional neuroimaging [review] (Fletcher and Henson), 849
Frontal lobes, and visual perspective (Stuss *et al.*), 279
The frontal lobes are necessary for 'theory of mind' (Stuss *et al.*), 279
Frontotemporal dementia, hereditary (Rosso *et al.*), 1948

The functional anatomy of single-word reading in patients with hemianopic and pure alexia (Leff *et al.*), 510
Functional changes of the primary somatosensory cortex in patients with unilateral cerebellar lesions (Restuccia *et al.*), 757
Functional MRI of phonological and semantic processing in temporal lobe epilepsy (Billingsley *et al.*), 1218
Functional neuroanatomical correlates of hysterical sensorimotor loss (Vuilleumier *et al.*), 1077
Functional plasticity of language-related brain areas after cochlear implantation (Giraud *et al.*), 1307
Fusiform 'face area' in autism (Pierce *et al.*), 2059

GABA in motor cortex practice-dependent plasticity (Ziemann *et al.*), 1171
GABAerigic synaptic transmission inhibition in ischaemia (Centonze *et al.*), 1855
Gait, and dopamine availability (Ouchi *et al.*), 784
The gait disorder of advanced essential tremor (Stolze *et al.*), 2278
Gait in Parkinson's disease, subthalamic nucleus stimulation (Faist *et al.*), 1590
Ganglion neurones in diabetes (Zochodne *et al.*), 2319
Gene expression profiling of the nervous system in murine experimental autoimmune encephalomyelitis (Ibrahim *et al.*), 1927
Gene mutations in mitochondrial disorders (Sternberg *et al.*), 984
Glatiramer acetate, in multiple sclerosis (Rovaris *et al.*), 1803
Gliomas, adult brainstem (Guillamo *et al.*), 2528
Glucose metabolism in Parkinson's disease (Fukuda *et al.*), 1601
Gluten sensitivity, and ataxia (Bürk *et al.*), 1013
Glycerol trinitrate in rat, meninges inflammation (Reuter *et al.*), 2490
Grasping movements in monkey, visual guidance (Fogassi *et al.*), 571
Guam motor neurone disease (Morris *et al.*), 2215

Haemorrhage, subarachnoid (van Gijn and Rinkel), 249
Hand function in tactile apraxia (Binkofski *et al.*), 132
Hand grasping in monkey, visual guidance (Fogassi *et al.*), 571
Hand muscle representation in corticobasal ganglionic degeneration (Valls-Solé *et al.*), 1131
Head control, in torticollis (Münchau *et al.*), 47
Head injury in children, brain damage patterns (Geddes *et al.*), 1290
Head injury in infants, microscopic brain injury (Geddes *et al.*), 1299
Head posture in torticollis, (Maurer *et al.*), 413
Hemianopia, and single-word reading (Leff *et al.*), 510
and size perception (Ferber and Karnath), 527
Hemiballismus, and Parkinson's disease (Guridi and Obeso), 5
Hemispherectomy, and cortical blindness (Azzopardi *et al.*), 1228
touch and pain perception (Olausson *et al.*), 916
Herpes encephalitis, neuronal damage (Cagnin *et al.*), 2014
Hippocampal activity in memory retrieval (Maguire *et al.*), 1156
Hippocampal development in autism (Saitoh *et al.*), 1317
Hippocampus and striatum in planning (Dagher *et al.*), 1020
HIV infection, and quinolinic acid levels (Heyes *et al.*), 1033
Hu antigens in paraneoplastic encephalomyelitis (Graus *et al.*), 1138
Huntington's disease, and sequence learning (Brown *et al.*), 2188
Hyperalgesia in neuropathic pain, capsaicin-insensitive nociceptors (Magerl *et al.*), 1754
Hypokalaemic periodic paralysis type 2 caused by mutations at codon 672 in the muscle sodium channel gene SCN4A (Sternberg *et al.*), 1091
Hysterical sensorimotor loss (Vuilleumier *et al.*), 1077

Ictal bradycardia in partial epileptic seizures: autonomic investigation in three cases and literature review (Tinuper *et al.*), 2361
Identification of famous faces and buildings: a functional neuroimaging study of semantically unique items (Gorno-Tempini and Price), 2087
Ideomotor apraxia, praxis network (Hanna-Pladdy *et al.*), 2513
Idiom and metaphor comprehension in Alzheimer's disease (Papagno), 1450
Immunoglobulin therapy in motor neuropathy (Léger *et al.*), 145
Impaired spatial working memory across saccades contributes to abnormal search in parietal neglect (Husain *et al.*), 941
Impaired temporal contrast sensitivity in dyslexics is specific to retain-and-compare paradigms (Ben-Yehudah *et al.*), 1381
In vivo assessment of the brain and cervical cord pathology of patients with primary progressive multiple sclerosis (Rovaris *et al.*), 2540
In vivo visualization of activated glia by [^{11}C](*R*)-PK11195-PET following herpes encephalitis reveals projected neuronal damage beyond the primary focal lesion (Cagnin *et al.*), 2014
Increased frontal [^{18}F]fluorodopa uptake in early Parkinson's disease: sex differences in the prefrontal cortex (Kaasinen *et al.*), 1125
Increased intensity perception of aversive taste following right anteromedial temporal lobe removal in humans (Small *et al.*), 1566
Increased visual after-effects following pattern adaptation in migraine: a lack of intracortical excitation? (Shepherd), 2310
Inhibition of matrix metalloproteinases and tumour necrosis factor α converting enzyme as adjuvant therapy in pneumococcal meningitis (Leib *et al.*), 1734
Interference resolution, prefrontal regions (Bunge *et al.*), 2074
Interferon beta-1b treatment in multiple sclerosis (Barkhof *et al.*), 1396
Interictal cardiac autonomic dysfunction in temporal lobe epilepsy demonstrated by [^{123}I]metaiodobenzylguanidine-SPECT (Druschky *et al.*), 2372
Intrathecal antibody production against *Chlamydia pneumoniae* in multiple sclerosis is part of a polyspecific immune response (Derfuss *et al.*), 1325
Intravenous apomorphine therapy in Parkinson's disease: clinical and pharmacokinetic observations (Manson *et al.*), 331
Intravenous immunoglobulin therapy in multifocal motor neuropathy: a double-blind, placebo-controlled study (Léger *et al.*), 145
Ischaemia, acute cerebral, tissue outcome (Heiss *et al.*), 20
synaptic transmission inhibition (Centonze *et al.*), 1855

L1 mutations, corticospinal function (Dobson *et al.*), 2393
LAMA2 mutation in muscular dystrophy (Di Blasi *et al.*), 698
Language comprehension in Alzheimer's disease (Papagno), 1450
Language lateralization, atypical, behavioural relevance (Knecht *et al.*), 1657
Language processing, after cochlear implant (Giraud *et al.*), 1307

in temporal lobe epilepsy (Billingsley *et al.*), 1218
Laughter and crying, pathological, cerebellum link (Parvizi *et al.*), 1708
Leber's hereditary optic neuropathy, and *ND6* gene mutations (Chinnery *et al.*), 209
Leflunomide, in experimental autoimmune neuritis (Korn *et al.*), 1791
Left minineglect in dyslexic adults (Hari *et al.*), 1373
Leg muscle stability in primary orthostatic tremor (Fung *et al.*), 322
Levodopa in Parkinson's disease, fMRI study (Haslinger *et al.*), 558
Levodopa-induced dyskinesias in MPTP-treated monkey (Boraud *et al.*), 546
Lidocaine and muscimol microinjections in subthalamic nucleus reverse parkinsonian symptoms (Levy *et al.*), 2105
Limb amputation, phantom pain (Lotze *et al.*), 2268
Limbic system abnormality in autism (Saitoh *et al.*), 1317
Lobectomy, space and memory deficits (Spiers *et al.*), 2476
Long-term remyelination after optic neuritis: a 2-year visual evoked potential and psychophysical serial study (Brusa *et al.*), 468
Lumbosacral radiculoplexus neuropathy, non-diabetic (Dyck *et al.*), 1197

Macromolecules elevated in acute multiple sclerosis (Mader *et al.*), 953
Macrophagic myofasciitis, and CNS disease (Authier *et al.*), 974
Macrophagic myofasciitis lesions assess long-term persistence of vaccine-derived aluminium hydroxide in muscle (Gherardi *et al.*), 1821
Magnetic resonance imaging and spectroscopic changes in brains of patients with cerebrotendinous xanthomatosis (De Stefano *et al.*), 121
Magnetization transfer imaging abnormalities in schizophrenia (Foong *et al.*), 882
Malformations of cortical development, causing epilepsy (Woermann *et al.*), 427
benzodiazepine receptors (Hammers *et al.*), 1555
Malformations of cortical development and epilepsy, diffusion tensor imaging (Eriksson *et al.*), 617
Mania, PET study of decision-making (Rubinsztein *et al.*), 2550
Material-specific lateralization in the media' temporal lobe and prefrontal cortex during memory encoding (Golby *et al.*), 1841
Matrix metalloproteinase and TACE inhibition in pneumococcal meningitis (Leib *et al.*), 1734
Matrix metalloproteinase and TIMP expression in multiple sclerosis (Lindberg *et al.*), 1743
Matrix metalloproteinase involvement in axon damage (Newman *et al.*), 2203
Matrix metalloproteinases, in multiple sclerosis and Devic's neuromyelitis optica (Mandler *et al.*), 493
in myositis (Kieseier *et al.*), 341
Matrix metalloproteinases and tissue inhibitors of metalloproteinases in cerebrospinal fluid differ in multiple sclerosis and Devic's neuromyelitis optica (Mandler *et al.*), 493
Mechanisms of cognitive set flexibility in Parkinson's disease (Cools *et al.*), 2503
Median nerve excitability in polyneuropathy (Cappelen-Smith *et al.*), 2439
Membrane properties in chronic in flammatory demyelinating polyneuropathy (Cappelen-Smith *et al.*), 2439
Memory, autobiographical, in transient epileptic amnesia (Manes *et al.*), 499
episodic, in Alzheimer's disease (Bäckman *et al.*), 96
long-term, and semantic dementia (Murre *et al.*), 647
short-term, in Alzheimer's disease (Grady *et al.*), 739
spatial working, in parietal neglect (Husain *et al.*), 941
topographical and episodic (Spiers *et al.*), 2476
working, prefrontal regions (Bunge *et al.*), 2074
Memory and executive function in sporadic and familial Parkinson's disease (Dujardin *et al.*), 389
Memory encoding, brain regions (Golby *et al.*), 1841
neural correlates (Otten *et al.*), 399
Memory processing, frontal cortex (Fletcher and Henson), 849
Memory retrieval, hippocampal activity (Maguire *et al.*), 1156
Meningeal inflammation after glycerol trinitrate infusion (Reuter *et al.*), 2490
Meningitis, pneumococcal, MMP–TACE inhibition therapy (Leib *et al.*), 1734
Mesial temporal sclerosis, temporal lobe atrophy (Moran *et al.*), 167
Metaphor and idiom comprehension in Alzheimer's disease (Papagno), 1450
Microdysgenesis in temporal lobe epilepsy: a quantitative and immunohistochemical study of white matter neurones (Thom *et al.*), 2299
Micturation and urinary continence, brain mechanisims (Athwal *et al.*), 369
Migraine, and rat meninges inflammation (Reuter *et al.*), 2490
pattern adaptation (Shepherd), 2310
Mild muscular dystrophy due to a nonsense mutation in the *LAMA2* gene resulting in exon skipping (Di Blasi *et al.*), 698
Miller–Fisher syndrome, and CANOMAD (Willison *et al.*), 1968
anti-ganglioside antibodies (O'Hanlon *et al.*), 893
Mirror reading in testing brain activity (Poldrack and Gabrieli), 67
Mitochondrial DNA transfer RNA gene sequence variations in patients with mitochondrial disorders (Sternberg *et al.*), 984
The mitochondrial *ND6* gene is a hot spot for mutations that cause Leber's hereditary optic neuropathy (Chinnery *et al.*), 209
Modulation of practice-dependent plasticity in human motor cortex (Ziemann *et al.*), 1171
Modulation of presynaptic inhibition and disynaptic reciprocal Ia inhibition during voluntary movement in spasticity (Morita *et al.*), 826
Morvan's syndrome: peripheral and central nervous system and cardiac involvement with antibodies to voltage-gated potassium channels (Liguori *et al.*), 2417
Motion discrimination in cortically blind patients (Azzopardi and Cowey), 30

Parkinson's disease, apomorphine therapy (Manson *et al.*), 331
bradykinesia (Berardelli *et al.*), 2131
brain activation during planning (Dagher *et al.*), 1020
cognitive set flexibility (Cools *et al.*), 2503
effects of pallidal brain stimulation (Fukuda *et al.*), 1601
fluorodopa uptake sex differences (Kaasinen *et al.*), 1125
fMRI study with levodopa (Haslinger *et al.*), 558
gait-induced dopamine changes (Ouchi *et al.*), 784
heredity and cognitive impairment (Dujardin *et al.*), 389
interrelationship of motor centres (Marsden *et al.*), 378
lidocaine and muscimol therapy (Levy *et al.*), 2105
subthalamic nucleus (Rodriguez-Oroz *et al.*), 1777
subthalamic nucleus and hemiballismus (Guridi and Obeso), 5
Parkinsonian gait, effect of subthalamic nucleus stimulation (Faist *et al.*), 1590
Pathological laughter and crying: a link to the cerebellum (Parvizi *et al.*), 1708
Pathophysiology of bradykinesia in Parkinson's disease [review] (Berardelli *et al.*), 2131
Pattern adaptation in migraine (Shepherd), 2310
Pattern electroretinograms after cerebral hemispherectomy (Azzopardi *et al.*), 1228
Patterns of cerebrospinal fluid pathology correlate with disease progression in multiple sclerosis (Cepok *et al.*), 2169
Penumbral probability thresholds of cortical flumazenil binding and blood flow predicting tissue outcome in patients with cerebral ischaemia (Heiss *et al.*), 20
Peptidoglycan in multiple sclerosis (Schrijver *et al.*), 1544
Persistent reelin-expressing Cajal–Retzius cells in polymicrogyria (Eriksson *et al.*), 1350
Person familiarity, neural activity (Shah *et al.*), 804
Phantom movements and pain: an fMRI study in upper limb amputees (Lotze *et al.*), 2268
Phonagnosia, neural activity (Shah *et al.*), 804
Phonological output store in dyslexia (Crutch and Warrington), 1533
Phonological processing in temporal lobe epilepsy (Billingsley *et al.*), 1218
Plasminogen activators in multiple sclerosis lesions: implications for the inflammatory response and axonal damage (Gveric *et al.*), 1978
Pneumococcal meningitis, MMP–TACE inhibition therapy (Leib *et al.*), 1734
Polymicrogyria, and reelin expression (Eriksson *et al.*), 1350
Polyneuropathy, chronic inflammatory demyelinating (Bosboom *et al.*), 2427; (Cappelen-Smith *et al.*), 2439
Post-mortem high-resolution MRI of the spinal cord in multiple sclerosis: a correlative study with conventional MRI, histopathology and clinical phenotype (Lycklama à Nijeholt *et al.*), 154
Post-mortem MRI-guided sampling of multiple sclerosis brain lesions: increased yield of active demyelinating and (p)reactive lesions (De Groot *et al.*), 1635
Praxis, cortical and subcortical structures (Hanna-Pladdy *et al.*), 2513
Pre-term birth, and the cerebellum (Allin *et al.*), 60
Precentral motor system, variability and asymmetry (Rademacher *et al.*), 2232
Prefrontal regions involved in keeping information in and out of mind (Bunge *et al.*), 2074
Prefrontal regions supporting spontaneous and directed application of verbal learning strategies: evidence from PET (Savage *et al.*), 219
Presenilin 1 mutation, in amyloid angiopathy (Dermaut *et al.*), 2383
Presurgical evaluation of epilepsy [review] (Rosenow and Lüders), 1683
The prevalence of progressive supranuclear palsy (Steele–Richardson–Olszewski syndrome) in the UK (Nath *et al.*), 1438
Primary lateral sclerosis (Le Forestier *et al.*), 1989
Progressive supranuclear palsy, frontotemporal dementia with parkinsonism linked to chromosome 17 and familial tauopathies [reply to letter] (Stanford et al.), 1668
Progressive supranuclear palsy as a disease phenotype caused by the S305S tau gene mutation [letter] (Wszolek *et al.*), 1666
Progressive supranuclear palsy in the UK (Nath *et al.*), 1438
Propagation disturbance of motor unit action potentials during transient paresis in generalized myotonia: a high-density surface EMG study (Drost *et al.*), 352
Prosopagnosia, neural activity (Shah *et al.*), 804
Prospective study of selective peripheral denervation for botulinum-toxin resistant patients with cervical dystonia (Münchau *et al.*), 769
Proton MR spectroscopy with metabolite-nulling reveals elevated macromolecules in acute multiple sclerosis (Mader *et al.*), 953

Quantitative short echo time proton magnetic resonance spectroscopic imaging study of malformations of cortical development causing epilepsy (Woermann *et al.*), 427
Quinolinic acid levels in HIV infection (Heyes *et al.*), 1033

Reaching, visual control, subcortical involvement (Day and Brown), 1832
Reaching and grasping in monkey, visual guidance (Fogassi *et al.*), 571
Reading of single words in alexia (Leff *et al.*), 510
Recovery of brain function during induced cerebral hypoperfusion (Marshall *et al.*), 1208
Reelin expression in polymicrogyria (Eriksson *et al.*), 1350
Reflex sympathetic dystrophy, vascular abnormalities (Wasner *et al.*), 587
Refractory dyslexia: evidence of multiple task-specific phonological output stores (Crutch and Warrington), 1533
Regional cerebral correlates of global motion perception: evidence from unilateral cerebral brain damage (Vaina *et al.*), 310
Regulation of Schwann cell proliferation and apoptosis in PMP22-deficient mice and mouse models of Charcot–Marie–Tooth disease type 1A (Sancho *et al.*), 2177
Relaxation, biofeedback, and brain activity (Critchley *et al.*), 1003
Remyelination after optic neuritis (Brusa *et al.*), 468
Repetition priming, neural basis (Poldrack and Gabrieli), 67
Respiratory muscle strength and ventilatory failure in amyotrophic lateral sclerosis (Lyall *et al.*), 2000
Retinal ganglion cell function after hemispherectomy (Azzopardi *et al.*), 1228
The role of [^{18}F]fluoro-2-deoxyglucose PET scanning in the diagnosis of

paraneoplastic neurological disorders (Rees *et al.*), 2223
The role of the striatum and hippocampus in planning: a PET activation study in Parkinson's disease (Dagher *et al.*), 1020
Roles of capsaicin-insensitive nociceptors in cutaneous pain and secondary hyperalgesia (Magerl *et al.*), 1754

Saccade control in Tourette's syndrome (LeVasseur *et al.*), 2045
Schizophrenia, cortical magnetization transfer imaging abnormalities (Foong *et al.*), 882
Schwann cells in Charcot–Marie–Tooth mouse models (Sancho *et al.*), 2177
Selective impairment of verb processing associated with pathological changes in Brodmann areas 44 and 45 in the motor neurone disease–dementia–aphasia syndrome (Bak *et al.*), 103
Semantic dementia: relevance to connectionist models of long-term memory [review] (Murre *et al.*), 647
Semantic memory deficits in Alzheimer's disease (Giffard *et al.*), 1522
Semantic network for nouns and verbs (Tyler *et al.*), 1619
Semantic organization, prefrontal regions (Savage *et al.*), 219
Semantic processing in temporal lobe epilepsy (Billingsley *et al.*), 1218
Semantically unique items identification (Gorno-Tempini and Price), 2087
Sensorimotor abnormalities in focal dystonia (Abbruzzese *et al.*), 537
Sensorimotor cortex in Parkinson's disease (Marsden *et al.*), 378
Sensory ataxic neuropathy with anti-disialosyl IgM antibodies (Willison *et al.*), 1968
Sensory input to space representation (Bottini *et al.*), 1182
Sensory neurones in experimental diabetes (Zochodne *et al.*), 2319
Separate neural subsystems within 'Wernicke's area' (Wise *et al.*), 83
Sequence learning in Huntington's disease (Brown *et al.*), 2188
Severely impaired cerebrovascular reactivity predicts stroke and TIA risk in patients with carotid artery stenosis and occlusion (Markus and Cullinane), 457
Short-term brain volume change in relapsing–remitting multiple sclerosis: effect of glatiramer acetate and implications (Rovaris *et al.*), 1803
Sign language, narrative production (Braun *et al.*), 2028
Size perception in hemianopia and neglect (Ferber and Karnath), 527
Size-selective neuronal changes in the anterior optic pathways suggest a differential susceptibility to injury in multiple sclerosis (Evangelou *et al.*), 1813
Sjögren–Larsson syndrome (Willemsen *et al.*), 1426
Skeletal muscle disuse induces fibre type-dependent enhancement of Na^+ channel expression (Desaphy *et al.*), 1100
Skeletal muscle SCN4A mutation in hypokalaemic periodic paralysis (Sternberg *et al.*), 1091
Skill learning and priming, neural basis (Poldrack and Gabrieli), 67
Sleep disorders, Morvan's syndrome (Liguori *et al.*), 2417
Sleepiness, excessive daytime (Guilleminault and Brooks), 1482
Sodium channel expression, and skeletal muscle disuse (Desaphy *et al.*), 1100
Sodium channel gene mutation in hypokalaemic periodic paralysis (Sternberg *et al.*), 1091
Somatosensory cortex organization, motor activity-induced (Braun *et al.*), 2259
Somatosensory processing in cerebellar patients (Restuccia *et al.*), 757
Somatostatin- and neuropeptide Y-synthesizing neurones in the fascia dentata of humans with temporal lobe epilepsy (Sundstrom *et al.*), 688
Space representation, sensory input (Bottini *et al.*), 1182
Spasmodic torticollis, effects of head posture (Maurer *et al.*), 413
head control (Münchau *et al.*), 47
Spasticity, spinal inhibitory pathway control (Morita *et al.*), 826
Spatial neglect, and size perception (Ferber and Karnath), 527
Spatial working memory in parietal neglect (Husain *et al.*), 941
Speech processing, Wernicke's area subsystem (Wise *et al.*), 83
Spinal cord infarct and other acute myelopathies (de Seze *et al.*), 1509
Spinal cord MRI in multiple sclerosis (Lycklama à Nijeholt *et al.*), 154
Spinal reflex modulation in spasticity (Morita *et al.*), 826
Spinothalamic tract crossing (Nathan *et al.*), 793
Spontaneous remyelination following extensive demyelination is associated with improved neurological function in a viral model of multiple sclerosis (Murray *et al.*), 1403
Sporadic cerebellar ataxia associated with gluten sensitivity (Bürk *et al.*), 1013
Stability of the preclinical episodic memory deficit in Alzheimer's disease (Bäckman *et al.*), 96
Steadiness in primary orthostatic tremor (Fung *et al.*), 322
Steele–Richardson–Olszewski syndrome in the UK (Nath *et al.*), 1438
Stereotactic lesional surgery for the treatment of tremor in multiple sclerosis: a prospective case-controlled study (Alusi *et al.*), 1576
Stimulus processing in hemispherectomy (Olausson *et al.*), 916
Streptozocin-induced diabetic neuropathy, axonal excitability (Yang *et al.*), 1149
Striatum and hippocampus in planning (Dagher *et al.*), 1020
Stroke, and global motion perception (Vaina *et al.*), 310
thalamic, and involuntary movements (Kim), 299
tissue outcome (Heiss *et al.*), 20
Stroke after bone marrow transplantation: frequency, aetiology and outcome (Coplin *et al.*), 1043
Stroke effects on facial expression (Morecraft *et al.*), 176
Stroke risk in carotid artery disease (Markus and Cullinane), 457
A study of the cortical processing of ano-rectal sensation using functional MRI (Hobday *et al.*), 361
A study of tremor in multiple sclerosis (Alusi *et al.*), 720
Subarachnoid haemorrhage: diagnosis, causes and management [review] (van Gijn and Rinkel), 249
The subthalamic nucleus, hemiballismus, and Parkinson's disease: reappraisal of a neurosurgical dogma [review] (Guridi and Obeso), 5
Subthalamic nucleus, sensorimotor cortex and muscle interrelationships in Parkinson's disease (Marsden *et al.*), 378
The subthalamic nucleus in Parkinson's disease: somatotopic organization and physiological characteristics (Rodriguez-Oroz *et al.*), 1777
Subthalamic nucleus stimulation, and parkinsonian gait (Faist *et al.*), 1590
Superoxide dismutase in CSF from amyotrophic lateral sclerosis patients with and without CuZn-superoxide dismutase mutations (Jacobsson *et al.*), 1461
Suppression of experimental autoimmune neuritis by leflunomide (Korn *et al.*), 1791
Sural nerve demyelination in chronic inflammatory demyelinating polyneuropathy (Bosboom *et al.*), 2427
Synaptic transmission inhibition in ischaemia (Centonze *et al.*), 1855
A systematic review of the frequency and prognosis of arteriovenous malformations of the brain in adults [review] (Al-Shahi and Warlow), 1900

Systemic disease and other acute myelopathies (de Seze *et al.*), 1509

T-cell and macrophage-mediated axon damage in the absence of a CNS-specific immune response: involvement of metalloproteinases (Newman *et al.*), 2203
T_1 hypointense lesions in secondary progressive multiple sclerosis: effect of interferon beta-1b treatment (Barkhof *et al.*), 1396
Tactile apraxia: unimodal apractic disorder of tactile object exploration associated with parietal lobe lesions (Binkofski *et al.*), 132
Tactile apraxia without tactile agnosia (Valenza *et al.*), 2287
Taste intensity perception following temporal lobe removal (Small *et al.*), 1566
TATA box-binding protein gene in ataxia (Fujigasaki *et al.*), 1939
Tau gene mutation, and progressive supranuclear palsy (Stanford et al.), 1668; (Wszolek *et al.*), 1666
Temporal contrast sensitivity in dyslexia (Ben-Yehudah *et al.*), 1381
Temporal lobe, right anteromedial, in aversive taste perception (Small *et al.*), 1566
Temporal lobe epilepsy, and language processing (Billingsley *et al.*), 1218
cardiac autonomic dysfunction (Druschky et al.), 2372
microdysgenesis (Thom *et al.*), 2299
neuropeptides (Sundstrom *et al.*), 688
Temporal lobe volumetry in epilepsy (Moran *et al.*), 167
Temporal lobectomy, space and memory deficits (Spiers *et al.*), 2476
Thalamic stroke, involuntary movements (Kim), 299
Theory of mind, and executive functions (Fine *et al.*), 287
and frontal lobes (Stuss *et al.*), 279
'Theory of mind' impairments and their relationship to executive functioning following frontal lobe excisions (Rowe *et al.*), 600
Thermoregulation in CRPS I (Wasner *et al.*), 587
Topographical memory in temporal lobectomy (Spiers *et al.*), 2476
Torticollis, spasmodic, effects of head posture (Maurer *et al.*), 413
spasmodic, head control (Münchau *et al.*), 47
Touch and pain after hemispherectomy (Olausson *et al.*), 916
Tourette's syndrome, saccade control (LeVasseur *et al.*), 2045
Towards the reconstruction of central nervous system white matter using neural precursor cells (Mitome *et al.*), 2147
Transient epileptic amnesia, and autobiographical memory (Manes *et al.*), 499
Transient ischaemic attack risk in carotid artery disease (Markus and Cullinane), 457
Transient paresis, and generalized myotonia (Drost *et al.*), 352
Treatment of multiple sclerosis with Copaxone (COP): Elispot assay detects COP-induced interleukin-4 and interferon-‰S0000Tã response in blood cells (Farina *et al.*), 705
Tremor, advanced essential, gait disorder (Stolze *et al.*), 2278
orthostatic, and unsteadiness (Fung *et al.*), 322
Tremor in cervical dystonia, and essential tremor (Münchau *et al.*), 1765
Tremor in multiple sclerosis, surgery (Alusi *et al.*), 1576
Trigeminal neuralgia: pathology and pathogenesis [review] (Love and Coakham), 2347
Tumour investigation in paraneoplastic neurological disorders (Rees *et al.*), 2223
Two subsets of dendritic cells are present in human cerebrospinal fluid (Pashenkov *et al.*), 480
Two types of auditory neglect (Bellmann *et al.*), 676

Ubiquitin-positive inclusions in familial frontotemporal dementia (Rosso *et al.*), 1948
Unilateral temporal lobectomy patients show lateralized topographical and episodic memory deficits in a virtual town (Spiers *et al.*), 2476
Urinary urgency, brain mechanisms (Athwal *et al.*), 369

Vaccine-derived aluminium hydroxide, and macrophagic myofasciitis lesions (Gherardi *et al.*), 1821
Vaccines, and demyelinating CNS disorders (Authier *et al.*), 974
Variability and asymmetry in the human precentral motor system: a cytoarchitectonic and myeloarchitectonic brain mapping study (Rademacher *et al.*), 2232
Vascular abnormalities in reflex sympathetic dystrophy (CRPS I): mechanisms and diagnostic value (Wasner *et al.*), 587
Ventilatory failure in amyotrophic lateral sclerosis (Lyall *et al.*), 2000
Verb and noun processing (Tyler *et al.*), 1619
Verb processing in motor neurone disease (Bak *et al.*), 103
